

# Creating a Team

## Governance Action Plan

Our 'Governance Action Plan' offering can assist your club by:

- working with you to establish induction processes for incoming volunteers and committee members to ease any concerns they may have, and upskill them on the roles they play;
- establishing clear role descriptions for each committee position to ensure clarity around responsibilities, and assist the club to identify particular skillsets required; and
- ensuring your club has a diverse and inclusive culture and representation around the committee table.

You will receive two two-hour workshops with your club's committee and/or volunteers in your club responsible for governance initiatives, as well as a written action plan around governance focus areas.

**COST \$2,000.000**  
plus GST
